

Enterprise Europe Network is an initiative of the European Commission, being the largest network that supports businesses to innovate and grow in other markets, through specialized services provided by experts from over 600 centers with specific expertise, located in each region of the European Union and not only. All services are free of charge and can be personalized services, which meet the specific needs of each company that addresses an EEN center.

INTERNATIONAL PARTNERSHIPS

A white icon of two stylized human figures shaking hands, positioned between the words "PARTNERS" and "IPS". A white curved line arches underneath the handshake icon.

The mission of the Enterprise Europe Network Centers is to provide support to local companies to internationalize their business, by offering foreign trade consultancy, identifying new markets for products / services, initiating new contacts with potential partners, to develop together business / technologies or identifying funding opportunities for new business ideas, inventions and innovations.
